

International Society for Neutron Capture Therapy

Dr. Fong-In Chou, President

Dr. Silva Bortolussi, Secretary General

Memorandum of Understanding (MOU) between the
THE CURATORS OF THE UNIVERSITY OF MISSOURI ON BEHALF OF
UNIVERSITY OF MISSOURI, COLUMBIA, MISSOURI, USA, the
TAIWAN SOCIETY OF NEUTRON CAPTURE THERAPY, TAIPEI, TAIWAN and
the UNIVERSITY OF GRANADA, GRANADA, SPAIN

The International Congress on Neutron Capture Therapy (ICNCT) is a biennial meeting of the International Society for Neutron Capture Therapy (ISNCT). The 18th conference in this series is being managed by the Taiwan Society for Neutron Capture Therapy and those that they retain to assist (e.g. Tsing-Hua University), and is hereinafter referred to as the 18th International Congress on Neutron Capture Therapy (ICNCT-18), which will take place during the week of October 28-November 2, 2018, in Taipei, Taiwan.

The previous (17th) meeting in this series, ICNCT-17, took place during October, 2016 in Columbia, Missouri, USA and was managed by the University of Missouri (MU). The next (19th) meeting in this series, ICNCT-19, will take place during October or November, 2020 in Granada, Spain and will be managed by the University of Granada (UGR).

Based on their final accounting, the University of Missouri is holding a retained unexpended balance of funds from ICNCT-17 in the amount of \$31,751.33 (Thirty-One Thousand Seven Hundred Fifty-One US dollars and 33 US cents). In a previous MOU (Attached as Exhibit A), MU agreed to transmit unspent funds from ICNCT-17 to the organizers of ICNCT-18 for their use to support that conference.

However, the organizers of ICNCT-18 have determined that they have raised sufficient other funds to successfully conduct ICNCT-18 and therefore they decline to receive the above-described funds from MU, and they hereby request that the funds held by MU instead be transmitted directly to the organizers of ICNCT-19 in Spain for support of that conference and future ICNCT conferences, and associated other activities of the ISNCT, as may approved by the ISNCT Executive Board.

Accordingly the University of Missouri is now hereby authorized and directed to transmit the funds described above to the organizers of ICNCT-19 rather than to the organizers of ICNCT-18, and MU therefore is hereby relieved of its obligations under the previous MOU. Furthermore the organizers of ICNCT-19 agree to receive the described unspent funds from MU under the conditions described in this MOU.
